ournals moralizing over the stern necessity which is driving he indians westward and sweeping them from the face of THE BEOMINN WHITE LEAD COMPANY. there is necessity for Piracy, Murder or the Slave-Trade.-We have wronged and robbed them because they were weak and we strong-because they had lands and we coveted them; nothing more. The history of the last ten years has been especially black with outrage and crime; and the cruel, perfidieus exile of the Cherokees stands prominent among the National crimes which arrayed the moral sense of the country against the last Administration and ultimately ensured its downfull. Can the pretended admirers of Thomas JEFFERSON read the following extract from his writings without shame

"I considered our right of preemption of the Indian lands not as amounting to any dominion, or jurisdiction, or paramountship whatever, but merely in the nature of a remain-der, after the extinguishment of a present right, which gave as no present right whatever, but of preventing other nations from taking possession, and so defeating our expectancy: that the Indians had the full, undivided, and independent sovereignty, as long as they choose to keep it, and that this might be forever: that as fast as we extend our rights by purchase from them, so fast we extend the limits of our se ciety, and as soon as a new portion became encircled within or line, it became a fixed limit of our society."

Countemprits.-We learn from the Attakapas Gazette that a new regulation is now put in force in the banks of the ed at the counter of any of these institutions or branches, the name of the person presenting it is immediately registered, together with the number, letter, signatures, &c. of the notes thus presented, and then it is returned to its owner. LATER FROM BUENOS AYRES .- By the bark Smyrna, Capt. Day, which brought Buenos Ayres dates of June 26th, we learn that by late accounts from the Interior, the anticia general engagement between the forces of Lacalle and Lu Madrid is not likely to be realized. As the divisions of Gen. Oribe advanced, the forces of the former ussed over to the latter with increased rapidity. An entire madron known by the designation of Cullen, presented itself with arms, accourrements and horses, to advanced detachment commanded by Col. Bustos. The operations of the allied leaders was equally unfortunate. A convoy of arms and ammunition for Lavalle was captured on its way.

The Riverista schooner Lusia, long expected from Uru-

guay, was descried near Martin Garcia, by two vessels sent in pursuit of her from the National squadron, and after a sharp conflict, at close quarters, with the smaller of the two, was enable to make her escape. It is impossible to state her loss; she was, however, supposed to have been very roughly handled, both in the conflict and pursuit that followed.
